

777/A Terminal

SOFTWARE

HARDWARE

ACCESSORIES

Pair the 777/A terminal with your time and attendance software to provide employees with a secure method for clocking in/out for shifts/breaks. Device can perform job transfers, tip collection info, etc.

The 777/A is an excellent option for swipe-and-go time and attendance management. Use magnetic stripe, bar code, proximity or other badges with optional external readers available.

777/A supports power over Ethernet (POE) and includes a 2-hour operational backup battery. In the event of a power outage, employees will still be able to transfer departments and punch in and out.

Specifications

DATA CAPTURE FOR WORKPLACE ATTENDANCE

Alphanumeric Key	10
Backup Battery	2 hours
Communication Option	Ethernet (TCP/IP), Serial, Wireless (optional)
Display	32-character LCD back-lit screen
Environment	-20 to 60 Celsius, up to 95% humidity
External Reader	Wiegand input (2 ports)
In/Out Keys	Yes
Input	2 ports

Memory Space	512 Kbyte
Output	2 relays: sensor, access control
Physical Dimensions	9.4"x5.9"x3.3"
Power	12V, POE (optional)
Printer Capability	2 ports
Programmable Function Keys	6
Programming	ASCII-based, over communication port
Supported Readers	Magnetic Track 1 & 11, Barcode 0 of 9 & 2 of 5, Synel Proximity, HID
